Law School:  
Professor of Equity Jurisprudence, Pleadings and Practice, and of Criminal Law.

H. M. SWOPE, LL. B.,  
Law School:  
Professor of Real Property, Corporations, and of Probate Law.

T. R. PETRI, LL. B.,  
Secretary Law School:  
Professor of Contracts, Evidence and Constitutional Limitations.

IRA M. MOORE, LL. D.,  
Law School:  
Lecturer.

\* To be Filled before School Opens. For Medical Faculty see Page 35.

Section of College Campus

## GENERAL REMARKS

**C**HADDOCK COLLEGE is located in the beautiful City of Quincy, Illinois. This City is situated upon a stretch of limestone bluffs, two hundred and fifty feet above the water's surface, on the east bank of the Mississippi River, the world-renowned Father of Waters, half way between St. Louis and Rock Island, the distance to each of these cities being one hundred and sixty miles. No more charming and healthy location can be found between the Appalachian and Rocky Mountain Ranges. From Sunset Hill, in the northern suburbs, may be seen in one view the swift river current, with its bridge nearly a mile in length, the quiet waters of the bay, stretching back more than three miles, studded all along its banks with factories, saw mills, great ice houses and extensive quarries. Beyond the river the lowlands press back to a distance of ten miles, out of which rise the faint and beautiful outlines of the opposite bluffs. From the dome of the college building one can see, on a clear day, the line of the winding river and the bluffs, made more picturesque by village spires and domes, for a distance of more than twenty miles. The undulating farm lands, dotted with groves and stately residences, are plainly seen for a dozen miles eastward.

Quincy has forty thousand inhabitants. It has many fine, public buildings. Its court house is a massive structure, built of stone, at a cost of more than half a million of dollars. Its government building is a unique stone structure, having cost two hundred thousand dollars. The new public library building is unsurpassed for modern beauty. A very large city hall is just completed. The new hotel,

the Newcomb, built and furnished at a cost of nearly two hundred thousand dollars, would be a credit to a much larger city. The Methodist Church, completed over a year ago, is one of the largest in the West. The scores of elegant residences and great business houses can only be mentioned here.

. . .

### College Campus

The College Campus is an entire block, of nearly five acres, of gently sloping ground, situated one mile east and south of the court house. The Campus contains a great variety of large shade trees and ornamental shrubbery, and has neatly paved walks and drives, which add materially to the beauty of the location and the comfort and convenience of the students.

. . .

### Buildings

The main building is a unique, octagonal structure of finely dressed LaPorte marble, four hundred and fifty feet in circumference, and one hundred feet to the top of the dome, built at a cost of two hundred thousand dollars, and is very attractive in appearance. There are in this building six rooms 18x35 feet in size; eight rooms 18x24 feet in size, and several smaller rooms; besides, an octagonal rotunda, twenty feet in diameter. All these rooms are now in elegant condition and comfortably furnished. The entire building is heated by steam.

Thirty feet west of the College Building stands Vickers Hall. This building is 55x110 feet in dimension, four stories high and is built of brick and stone, with slate roof. It contains, besides a large assembly room, dining hall, kitchen and store rooms, sixty-four neat, airy, commodious and comfortable rooms for students. There are broad stairways at each end of the building. It is supplied with both hydrant and cistern water, hot and cold baths, and appliances for heating throughout with steam.

. . .

### Advantages

Especial attention is called to the advantages, both direct and incidental, which Chaddock College offers to those desiring to secure a liberal education.

The more direct advantages are found in the beauty and attractiveness of the buildings and grounds; the superior facilities and homelike character of the boarding department; the mild, yet firm and uniform, discipline maintained, constantly instilling by example rather than by precept the great importance of self-government; the variety and symmetry of the course of study; the superior ability and experience of those employed as instructors; and the constant presence and restraining influence of a healthy moral atmosphere, which awakens into action the better qualities of both head and heart.

Among the incidental advantages offered, mention may be made of its location in the Gem City of the Mississippi Valley, a place of unusual business enterprise and thrift, with a large public library and reading room, free to all students; the highest class of musical and literary entertainments in their seasons. Students upon arriving in the city should take the electric cars at depot, which run direct to our College. Baggage can be ordered by telephone after arrival at the College. Students should come direct to the College whether by day or night.

. . .

### Physical Apparatus

The College has a good working equipment of philosophical apparatus, known as the Abner Clarke collection. Among the more important pieces, may be mentioned a three-inch refracting telescope, one of Queen's best air pumps, a polariscope, a Toepler-Holtz electrical machine, a plunge battery of great power, electrolysis apparatus, and many other pieces necessary to the thorough explanation and understanding of modern physical science; and constant use is made of this apparatus in demonstrating the principles of Physics and Mechanics.

. . .

### Chemical Laboratory

The work in Chemistry consists of lectures, recitations and laboratory exercises. It is largely experimental; and the application of this science to practical life is clearly indicated. The laboratory is supplied with water, gas, blast pipe, and all other apparatus essential to thorough equipment for General and Analytical Chemistry. Each student is assigned a desk and furnished all needed apparatus. All work in the laboratory is conducted under the personal supervision of the professor.

During the session of 1892-93 the following courses will be open to students:

FALL TERM.—General Chemistry: Laboratory work and lectures.

WINTER TERM.—Laboratory work and lectures (continued).

SPRING TERM.—Qualitative Analysis.

An incidental fee of \$3.50 for each of the first two terms, and \$5.00 for the third term, will be charged to cover expense of material consumed.

. . .

### Biology

In Physiology three terms' work is offered. The first term's work (first term of Senior Preparatory year) is introductory, and deals with the general facts and principles of the science. The other two terms (second and third terms of the Sophomore year) are elective. In these courses the Anatomy and Physiology of the human body will be carefully studied and demonstrated by constant reference to charts, diagrams and dissections of the lower animals.

In Zoology two courses are offered. The first deals with Structural Zoology, and will consist of a careful examination and study of representative forms under the direction of the professor in charge, with two lectures a week. The second course will include the determination of various forms, by reference to texts with lectures on Distribution and other topics, giving the result of the most recent Biological research.

In Botany also two courses are offered: The first in Structural Botany, and the second in Systematic Botany, with lectures during both terms embodying the latest discoveries in this branch.

. . .

### Geology

Dana's text is used, illustrated by specimens from the Museum, and supplemented by lectures and occasional excursions by the class.

. . .

### Museum

The Museum contains collections of minerals, ores, petrifications, relics of ancient races, rare coins, and carefully preserved and beautifully mounted specimens of animal life. (Donations to these collections are earnestly requested.)

. . .

### Languages

Instruction is given in German by a professor who has studied the language in Germany. The classes in this language the past year made rapid progress.

The course in Latin and Greek is co-extensive with that of our best American colleges. The aim is to make them as near like living languages as possible. The professor in charge of these classes is very thorough. The work done is of the highest type. The classes which began Latin and Greek year before last were never larger in the history of the College. The classes of the past year did even more efficient work.

. . .

### Mathematics

It is the aim to make the course in Mathematics thorough and practical. Independence of book is urged repeatedly all through the course. Original and test problems are given, and prizes offered for their solution. Students are expected to so master the principles of the science that they may readily apply them whenever and wherever required. Students in the Business Department are in a separate class in Arithmetic to suit their needs. A class in Teacher's Arithmetic is for the Normal Department. In addition to these two or three other classes are formed in Arithmetic as the needs of the students may require. Algebra and Geometry are thoroughly taught from Wentworth's text books. During the past year students did excellent practical work in Trigonometry and

Surveying, in computing distances, laying out railroads, computing embankments, running curves, etc. The class in Mechanics did very satisfactory work in equilibrium of forces and scientific projectile practice. Constant effort is made to put life and meaning into the abstract deductions of Analytical Geometry and Calculus, with a view to make the students love the study.

### Recitations

The various courses of study prescribe four regular studies each term, and four recitations per week are held in each regular study, thus providing for each student sixteen regular recitations per week. So far as possible, all recitations are heard in the forenoon, thus giving the students the afternoon and evening for uninterrupted study.

### Examination and Grades

Extrance examinations for the proper classification of new students are held on the first day of each term.

Test examinations for the purpose of more perfectly determining the real work accomplished by each student, will be held at the close of each month. Examinations upon the entire work of the term will be held on the last three days of the term.

The character of the work performed by each student in every study pursued is indicated by numbers,—100 being perfect. A record of the daily recitations, test examinations and term examinations in each department is preserved; and, at the close of each term, from the department records, the grade of every student in each study is determined and announced upon the college bulletin. The minimum grade, in any study, upon which a student will be passed is 70.

Accurate records are kept of the date of entrance, course pursued and grade made in each study by every student; and report cards will be sent to parents or guardians of all students at the end of every month, showing deportment, grade in each study, number of hours absent from each recitation and from Chapel and Study Hall.

### Degrees

The College confers on those who satisfactorily complete the Classical Course the degree of Bachelor of Arts; the Scientific Course, Bachelor of Science; the Law Course, Bachelor of Laws.

The corresponding Master's degree will be conferred upon Bachelors of three years' standing, who have sustained a good, moral character, and have pursued professional or advanced studies.

Candidates for Master's Degrees should make application for the same to the President, enclosing the diploma fee, one month prior to the annual commencement.

Diploma Fee for any degree on graduation, \$5.00; for any degree *pro merito*, \$10.00; for the degree of Doctor of Divinity, \$25.00; for the degree of Doctor of Laws, \$25.00.

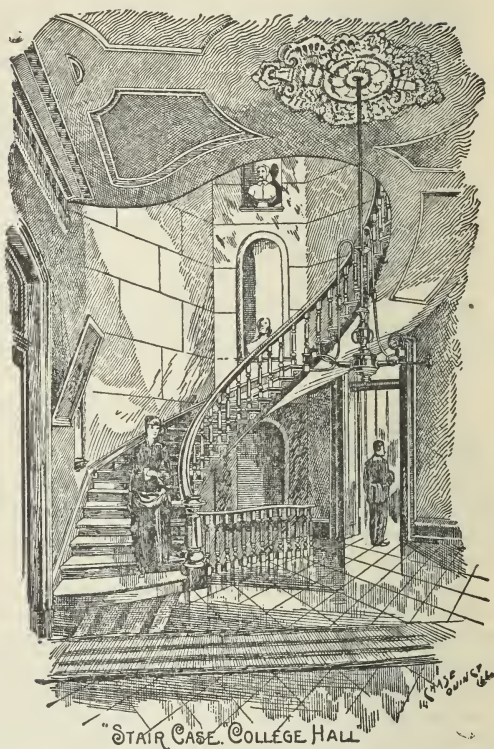

## SOCIETIES

(LITERARY)

There are two Literary Societies, "Cartesian" and "Adelphic," connected with the institution. These hold their sessions on Saturday evenings of each week, and to those connected with them, they afford valuable aid in composition, debate, elocution, parliamentary rules, etc.

Two halls, 35x18 feet, located in the upper part of the main building, have been fitted and furnished by the members of the societies for their exclusive use. The halls have been furnished with

elegant body Brussels carpets, beautiful chandeliers and other furnishings to correspond. The Literary Society work of the College has, for the past year, been of a very high order. The spirit of competition has never run higher. By a unanimous vote of the Faculty all regular students of the College must join one or the other of the Literary Societies. Students failing to comply with this demand will be required to perform literary work in chapel.

"STAIR CASE," COLLEGE HALL

Leading to Society Hall.

## Prizes

Prizes are offered each year for highest excellence in declamation, essay and oration.

The past year Rev. T. J. Wheat awarded ten dollars in gold to Mr. W. J. Davidson, Carthage, Ill., for the best oration; the College awarded ten dollars in gold to Miss Edith Barnes, Dupont, Mo., for the best declamation, and Pres. Lackland awarded ten dollars in gold to Miss Sarepta Barnes for the best essay. These prizes will continue for the coming year.

## Religious Culture

While the College is under the auspices of the Methodist Episcopal Church, it does not teach sectarian doctrines. The aim is simply to be truly Christian in theory and practice, and to give all its culture a positive religious character. Daily devotional exercises are held in the chapel, at which all students are required to be present. Students are also required to attend public worship at some of the churches in the city. A college prayer meeting is held one evening each week, and on Sabbath Bible classes are taught by members of the Faculty and others, and half an hour is devoted to sacred song. Students are earnestly urged to avail themselves of all these opportunities for moral and religious culture.

The Young Men's Christian Association and the Young Women's Christian Association, voluntary organizations, by calling out and putting into systematic exercise the religious activities of the students, accomplish great good. A neatly furnished room, especially dedicated to their use, is occupied by them for devotional meetings. Both the Y. M. C. A. and the Y. W. C. A. sent delegates to special summer schools at Lake Geneva, Wisconsin.

No year has passed in the recent history of the College in which there have not been numbers of conversions among the students. Marked growth has been made by those professing the Christian life when they came. A large per cent of the students departing from the College within the past three years have gone out professed Christians. Quite a number, whose habits were such when they came as to threaten utter ruin to themselves, have been converted and saved. Not one, so far as we know, has left the school in the mean time, with conditions of character the worse for having turned his footsteps hitherward. Should this work of grace continue in the school, Chaddock College may well be called the "revival college."

While the religious life of the student has been so high, the subject has, in no case, been presented in such a way as to displease. The encouragements to become Christians have been so favorable and the discouragements so trifling that the irreligious have found themselves willingly drawn over.

. . .

## Time of Entering

The proper time of entering is at the beginning of the term, though students will be received at any time during the school year. Those students who contemplate attendance are urged to be present the first day of the school year. Students arriving in the city at any hour, day or night, are invited to come directly to the College, where they will receive a hearty welcome and be assigned comfortable quarters without delay

. . .

## Requirements for Admission

Candidates for admission, from other schools and colleges, are

requested to bring certificates of honorable dismissal, giving in detail the amount and grade of the work they have done.

No student will be permitted to take instruction in music, art or elocution from persons not connected with the College without the consent of the President.

By enrolling, a student is regarded as assenting to the regulations of the College, and therefore he is amenable to its laws until his connection therewith is formally severed by graduation or otherwise.

### Government

The rules of Chaddock College are few and simple, easily remembered and easily observed by all well disposed persons. Gentlemanly and ladylike conduct is all that is required of anyone. The government of the institution is mild, but firm, and is designed to be at once preventive and corrective.

Punctual attendance at daily chapel and recitations, faithful performance of all work assigned, and a strict observance of study hours is required of every student. No student who disregards our rules for good government will be allowed to remain in school.

### Moral Habits

The use of intoxicating liquors, playing cards or games of chance, using profane or obscene language, visiting drinking or billiard saloons, disorderly conduct about the buildings or grounds, absence from rooms at improper hours, the use of tobacco on the campus or in the college buildings, marking or damaging the college property, and all other conduct unbecoming a student, are each and all forbidden.

### Tuition

The cost of Tuition in either the Preparatory, Academic or Collegiate Department is as follows :

Fall Term.....	\$16 00
Winter Term.....	13 00
Spring Term .....	11 00
Total.....	\$40 00

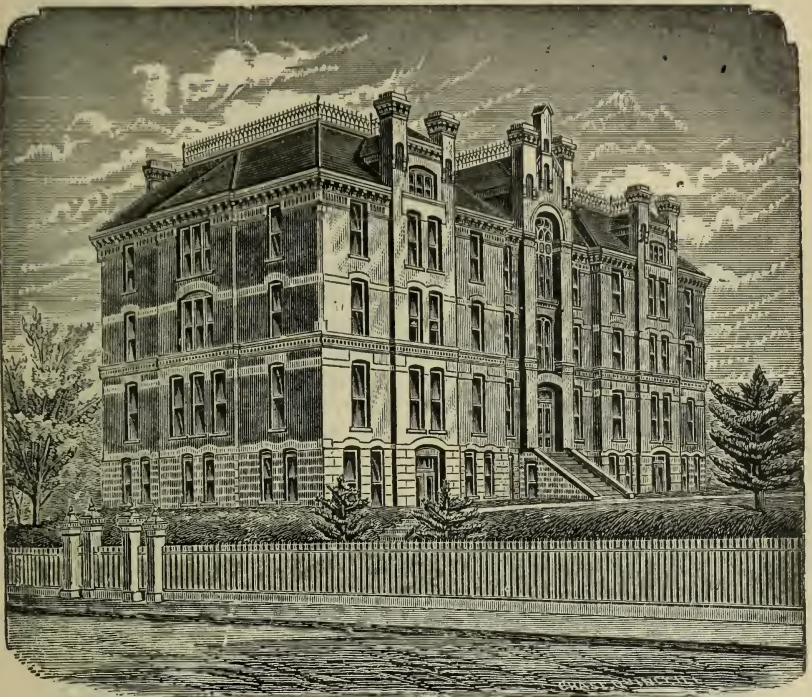

Tuition is payable in advance. Students are admitted to recitations only upon presentation of Tuition receipt, signed by the Treasurer. This rule will be rigidly adhered to.

Students entering after the second week will be charged *pro rata* Tuition for the remainder of the term.

No deductions are made for absence, unless occasioned by serious protracted personal sickness, or such other unforeseen circumstances as the Faculty may deem a sufficient reason. In such cases certificates will be issued for the time lost, applicable on future expenses or transferable, or money refunded.

The sons and daughters of ministers of all denominations admitted on half tuition.

Young men preparing for the ministry admitted on half tuition.

Vickers Hall.

## BOARDING

VICKERS HALL, described below, is opened for boarders from all departments of the institution. Each student rooming in the Hall is required to furnish one comfort, two sheets, three towels, three napkins, two pillow cases, one pillow, toilet soap, matches, broom and coal-oil lamp. Each imperishable article should be indelibly marked with the owner's name. The hall authorities furnish bedsteads, springs, mattresses, chairs, tables, wash-stands, mirrors and wardrobes. Carpets are furnished for ladies, and nicely painted floors for gentlemen.

### Terms—Rooms and Table Board

Fall Term, 15 weeks, per week, cash in advance, \$3.25.....	\$ 48 75
Winter Term, 12 weeks, per week, cash in advance, \$3.25.....	39 00
Spring Term, 11 weeks, per week, cash in advance, \$3.25.....	35 75
If not paid in advance, payable monthly, per week.....	3 75
For less than one term, payable monthly, per week.....	3 75
If paid in advance for the entire year, board and room.....	110 00

Students rooming alone from preference will be charge fifty cents per week extra.

When time has been lost on account of serious personal sickness or such other unforeseen circumstances as the Faculty may deem a sufficient reason, advanced money may be credited on future expense, or refunded after deducting at the rate of \$3.75 per week for full board, or \$3.00 for table board for time in attendance.

. . .

### Incidental Fee.

At an expense of about \$5,000 appliances have been placed in the College and Dormitory buildings for heating with steam. These improved conditions for health, safety and cleanliness are very desirable. In addition to the above expense, the students boarding in Vickers Hall are charged for light and heat, the Fall Term, \$3.00; Winter Term, \$5.00; Spring Term, \$2.00.

It is best to send money direct to the Registrar of the College. When students do not settle bills in advance, bills will be reported monthly to parents or guardians.

. . .

### Boarding Elsewhere

Boarding can be secured at private residences, boarding houses and hotels at \$3.50 to \$5.00 per week.

Some of our best and most respected students secure rooms, obtain supplies from home and board at a cost of one dollar per week. By purchasing supplies, self-boarding costs from \$2.00 to \$2.50 per week.

Students over age board where they choose, and those under age where their parents or guardians designate, but those of any age boarding in the dormitory are subject to all rules governing the same. In the dormitory regular hours for study are from 2:00 o'clock to 4:30 P. M., and from 6:30 to 9:30 P. M. All are required to retire at 10:00 P. M. and rise at 6:00 A. M. Recitation hours are from 8:00 A. M. to 12:20 P. M. Students desiring to absent themselves within recitation or study hours must obtain permission, and visiting within study or recitation hours is forbidden.

Address

REV. ABNER CLARKE, Registrar,  
QUINCY, ILL.

## PREPARATORY DEPARTMENT

. . .

**I**N the Preparatory Department elementary studies are taught, which prepare the student for the Freshman Class. Two Preparatory courses are presented, each of which requires two years for completion,—the Classical and Scientific. The studies are of such character and so arranged as to give the student suitable mental discipline, and to afford a comprehensive view of the fundamental facts and principles of a liberal education.

In addition to the studies indicated on the next page, the following branches are taught :

**SPELLING**—Daily recitations are held, in which forty words are assigned for study ; twenty-five of these are pronounced by the instructor and written by the student. The study of prefixes, suffixes, accentuation and word-making receives special attention.

**WRITING**—This branch is taught throughout the year.

**READING**—A class in reading is formed each term, in which articulation, pronunciation, accentuation and interpretation receive special attention. The vocal organs receive such attention by voice exercise as will develop the ability to read in a clear, practical and pleasing manner.

**ADDITIONAL CLASSES**—For the benefit of students who have not had favorable opportunities, and are back in grammar and arithmetic, additional classes will be formed.

Students not wishing to prepare for college are permitted to select such studies as are suitable to their needs. See also Academic Course for other branches.

Algebra.  
Zoology.  
Latin: Cæsar.  
Greek: Grammar and Lessons.

#### THIRD TERM

University Algebra Completed.  
Physiology.  
Latin: Cicero, Orations.  
Greek: Grammar and Lessons.

#### FIRST TERM

Algebra.  
Natural Philosophy.  
Latin: Cæsar.  
Physical Geography.

#### SECOND TERM

Algebra.  
Zoology.  
Latin: Cæsar.  
Pedagogy.

#### THIRD TERM

University Algebra Completed.  
Physiology.  
Latin: Cicero, Orations.  
Civil Government.

## COLLEGE OF LETTERS AND SCIENCE

## Remarks

THE COLLEGE OF LETTERS AND SCIENCE presents two courses of study :

1. The Classical Course, requiring four years for completion and leading to the degree of Bachelor of Arts.

This course has been arranged for those who desire a thoroughly classical education. In it prominence is given to the study of Latin and Greek. At the same time it includes extended research in the subjects of Philosophy, History, Mathematics and Natural Science. The selection and arrangement of studies in this course have been made with reference to the systematic development of the various faculties of the mind and not with the view to any special vocation; and yet, because of the superior general culture which its thorough mastery yields, it is well adapted to prepare the student for any pursuit in life, and especially for the learned professions.

2. The Scientific Course, requiring four years for its completion and leading to the degree of Bachelor of Science.

In this course the studies in the Natural Sciences and Modern Languages are made prominent, while the Higher English and Political Science receive due attention. The Greek is omitted and the study of the German language is introduced. If preferred, the student may elect the French language instead of the last four terms of Latin. To those who are seeking a thorough collegiate education, and yet who do not care to pursue the study of the Greek language, this course presents unusual attractions.

Students are urged to carefully select that course which will best subserve their purpose and be most in harmony with their plans in life, and then pursue it to completion. Transferring from one course to another, after the work is well begun, results in loss of time and lack of symmetry in the culture obtained.

Students who are not candidates for a degree may select such studies as they desire under the supervision of the Faculty. Upon severing their connection with the institution they will be furnished a certificate of attainment.

Those who have commenced courses of study laid down in previous catalogues, and not included in the new *regime*, will be permitted to complete them.

# COLLEGE OF LETTERS AND SCIENCE

## COURSE OF STUDY

### Freshman Year

#### CLASSICAL

##### FALL TERM

Xenophon's Anabasis, Prose Composition.  
Cicero's Orations, Prose Composition.  
Geometry.  
Hart's Rhetoric.

##### WINTER TERM

Xenophon's Anabasis, Prose Composition.  
Vergil.  
Geometry.  
General History.

##### SPRING TERM

Homer's Iliad.  
Vergil's Æneid.  
Geometry Completed.  
General History.

#### SCIENTIFIC

##### FALL TERM

Collar's Eysenbach.  
Cicero's Orations, Prose Composition.  
Geometry.  
General History.

##### WINTER TERM

Collar's Eysenbach.  
Vergil.  
Geometry.  
General History.

##### SPRING TERM

Collar's Eysenbach.  
Vergil's Æneid.  
Geometry Completed.  
Hart's Rhetoric.

### Sophomore Year

#### FALL TERM

Lysias; Boise's Composition.  
Cicero's Philosophical Works.  
Trigonometry and Surveying.  
Zoology—Nichelson.

##### WINTER TERM

Herodotus; Prose Composition.  
Livy; Roman History.  
Mechanics.  
Physiology—Advanced.

##### SPRING TERM

Homer's Odyssey.  
Plautus or Terence.  
Analytic Geometry or French.  
Gray's Botany.

#### FALL TERM

Schiller's Works.  
Cicero's Philosophical Works.  
Trigonometry and Surveying.  
Zoology—Nichelson.

##### WINTER TERM

Goethe's Works.  
Livy; Roman History.  
Mechanics.  
Physiology—Advanced.

##### SPRING TERM

Lessing's Works.  
Plautus or Terence.  
Analytic Geometry or French.  
Gray's Botany.

## Junior Year

### CLASSICAL

#### FALL TERM

Tacitus.  
Bowser's Calculus or French.  
Logic—Hill's, Jevons'.  
Chemistry.

#### WINTER TERM

Demosthenes—Greek History.  
Pynchon's Physics.  
Literature.  
Horace's Odes and Satires.

#### SPRING TERM

Sophocles—Greek History.  
Horace's Ars Poetica.  
Qualitative Analysis.  
English and American Literature.

### SCIENTIFIC

#### FALL TERM

Tacitus.  
Bowser's Calculus or French.  
Logic—Hill's, Jevons'.  
Chemistry.

#### WINTER TERM

Horace's Odes and Satires.  
Pynchon's Physics.  
Literature.  
Bascom's Esthetics.

#### SPRING TERM

Horace's Ars Poetica.  
Qualitative Analysis.  
English and American Literature.  
Dana's Mineralogy.

. . .

## Senior Year

### FALL TERM

Psychology.  
Schwegler's History of Philosophy.  
Dana's Geology.  
History of Civilization.

### WINTER TERM

Evidences of Christianity.  
Moral Philosophy.  
International Law.  
Astronomy.

### SPRING TERM

Political Economy.  
History of Art.  
Whately's Rhetoric.

### FALL TERM

Psychology.  
Schwegler's History of Philosophy.  
Dana's Geology.  
History of Civilization.

### WINTER TERM

Evidences of Christianity.  
Moral Philosophy.  
International Law.  
Astronomy.

### SPRING TERM

Political Economy.  
History of Art.  
Whately's Rhetoric.

## NORMAL COLLEGE

. . .

### Remarks

—

THERE are many young men and young women who cannot for various reasons complete a college course; and yet they find that, in accordance with the spirit of the times, a high course of training and liberal culture are indispensable to their success. They feel that to be deficient in these things is to be deprived of much higher usefulness and happiness.

There is great moral force added to one's character who is conscious of having undertaken and finished some definite enterprise of high order.

The courses of study prescribed for this department are higher than the curriculum of any Normal School of which we have knowledge. They are but two years short of the College Courses.

They are higher than those in the best High Schools. Graduates of High Schools who would like the additional training and culture of a year or two in college will find their needs met in the Chaddock Normal College.

Upon the completion of either the Classical or Scientific Course a diploma will be awarded. No degree will be awarded as in the College of Letters and Science.

Tuition same as Preparatory and Collegiate. See page 14.

# NORMAL COLLEGE

## COURSES OF STUDY

### First Year

#### CLASSICAL

##### FIRST TERM

Practical Arithmetic.  
Descriptive Geography.  
English Grammar.  
Latin: Grammar and Lessons.

##### SECOND TERM

Practical Arithmetic.  
U. S. History.  
English Grammar.  
Latin: Grammar and Lessons.

##### THIRD TERM

Practical Arithmetic.  
U. S. History.  
English Composition.  
Latin: Grammar and Lessons.

#### SCIENTIFIC

##### FIRST TERM

Practical Arithmetic.  
Descriptive Geography.  
English Grammar.  
Latin: Grammar and Lessons.

##### SECOND TERM

Practical Arithmetic.  
U. S. History.  
English Grammar.  
Latin: Grammar and Lessons.

##### THIRD TERM

Practical Arithmetic.  
U. S. History.  
English Composition.  
Latin: Grammar and Lessons.

. . .

### Second Year

##### FIRST TERM

Algebra.  
Natural Philosophy.  
Latin: Cæsar.  
Greek: Grammar and Lessons.

##### SECOND TERM

Algebra.  
Zoology.  
Latin: Cæsar.  
Greek: Grammar and Lessons.

##### THIRD TERM

University Algebra.  
Physiology.  
Latin: Cicero, Orations.  
Greek: Grammar and Lessons.

##### FIRST TERM

Algebra.  
Natural Philosophy.  
Latin: Cæsar.  
Physical Geography.

##### SECOND TERM

Algebra.  
Zoology.  
Latin: Cæsar.  
Pedagogy.

##### THIRD TERM

University Algebra.  
Physiology.  
Latin: Cicero, Orations.  
Civil Government.

### Third Year

#### CLASSICAL

##### FIRST TERM

Anabasis, Composition.  
Cicero's Orations, Jones' Composition.  
Geometry.  
Elements of Rhetoric.

##### SECOND TERM

Anabasis, Composition.  
Cicero's Orations, Jones' Composition.  
Geometry.  
General History.

##### THIRD TERM

Homer's Illad, Greek Mythology.  
Vergil's Æneid.  
Geometry Completed.  
General History Completed.

#### SCIENTIFIC

##### FIRST TERM

Collar's Eysenbach.  
Cicero's Orations, Jones' Composition.  
Geometry.  
Elements of Rhetoric.

##### SECOND TERM

Collar's Eysenbach.  
Cicero's Orations, Prose Composition.  
Geometry.  
General History.

##### THIRD TERM

Collar's Eysenbach.  
Vergil's Æneid.  
Geometry Completed.  
General History Completed.

. . .

### Fourth Year

#### FIRST TERM

Trigonometry and Surveying.  
Chemistry.  
History of Civilization.  
Logic.

#### SECOND TERM

Physics.  
Christian Evidences.  
Moral Philosophy.  
Literature.

#### THIRD TERM

Botany.  
History of Art.  
English Literature.  
Political Economy.

#### FIRST TERM

Trigonometry and Surveying.  
Chemistry.  
History of Civilization.  
Logic.

#### SECOND TERM

Physics.  
Christian Evidences.  
Moral Philosophy.  
Literature.

#### THIRD TERM

Botany.  
History of Art.  
English Literature.  
Political Economy.

## BUSINESS COLLEGE

. . .

T. F. HECKERT, Principal

**B**OOK-KEEPING is an essential part of a young person's education. In accordance with this demand Chaddock

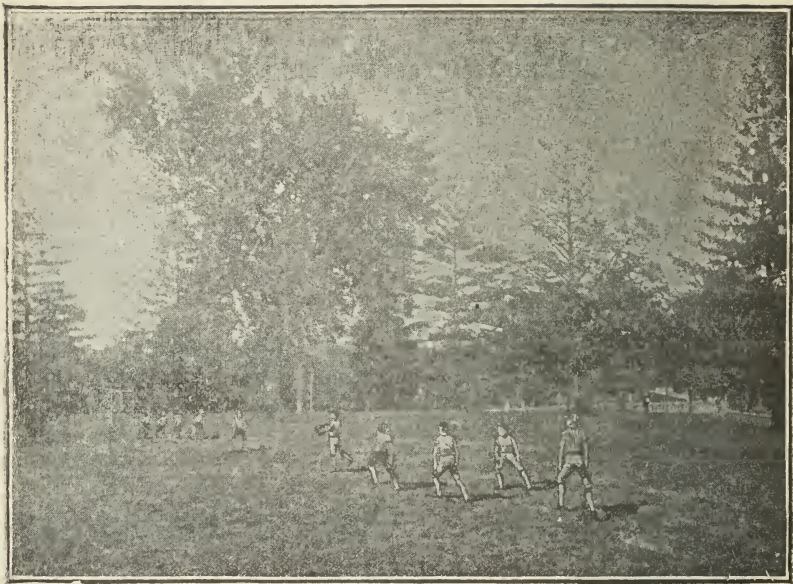

College added, two years ago, to the regular Literary Course, Book-keeping and Commercial Law. Quite a number of students enrolled in these branches in the day and evening schools. Many of these students have demanded a full business course. In order to save them to the institution, and meet the needs of a large number of others, who have signified their intention to enter Chaddock College for a Literary Course, provided a Business Course can also be obtained, the trustees, at their annual meeting, just closed, decided to continue and enlarge the same, making it a very full and complete Business Course. The Principal is a graduate of Professor W. S. Brewer's Institute of Penmanship; also of the Gem City Business College. He will have the entire charge of the Business Department.

The student seeking more than a mere business education will at once observe the special advantages in attending a business college connected with a literary institution. An opportunity to associate with a high class of students, and to receive instruction from professors high in literary and mental culture, are afforded. Literary societies of first-class order give advantages greatly appreciated by young people. In this country, at least, a business knowledge of German is helpful. German is taught in Chaddock Business College by one who studied the language in Germany.

Chaddock College is located at a convenient distance from the business part of the city, out of the noise and dust of the street; is situated upon the highest ground in the city; has an open campus of five acres; is supplied with elegant shade trees and shrubbery; has one of the finest boarding halls in the West, furnished with hot and cold baths and heated throughout with steam. The rates are lower than can be obtained for board of the same quality elsewhere in the city.

The recitation rooms are all on the first floor; the society halls are all finely fitted up and are of easy access; a Young Men's and a Young Women's Christian Association are organized at the College and afford excellent religious and moral culture for those desiring such. To sum up all, we do not know of any business college in the country affording so many desirable points as Chaddock Business College.

Exercise in Foot Ball, East Side the Campus.

The student may take any of the following studies; but a diploma from the Business Department will not be given until he has taken Spelling, Penmanship, Arithmetic, Commercial Law, Business Letter Writing, Book-keeping and Actual Business.

. . .

### Courses of Study

**BOOK-KEEPING**—A complete course in Book-keeping will be taught, including all the elements, single and double entry, banking, wholesale and retail, farming, manufacturing, railroading, steamboating, foreign commerce, exchange, insurance, and all else that pertains to a perfect course in this department.

**ACTUAL BUSINESS**—A suitable room is fitted up for this department. There are two banks with all necessary desks for operation. Instruction will be given by actual practice in wholesale and retail work, commission sales, foreign exchange, and all usual business transactions. Currency will be supplied to students, and all transactions settled in cash and business paper.

**PENMANSHIP**—A fine course in Business and Ornamental Penmanship will be conducted throughout the year.

**BUSINESS ARITHMETIC** will be taught by a very thorough instructor in mathematics.

**COMMERCIAL LAW**—Professor Heckert has a very high grade as a former student, and will simplify instruction in this department and make it a most pleasing as well as a most profitable study.

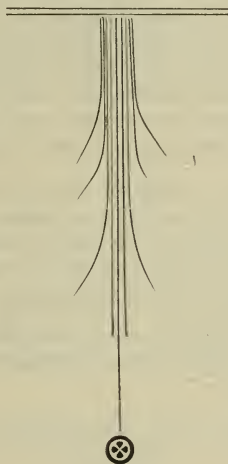

**BUSINESS CORRESPONDENCE**—A complete course in this branch is afforded.

**LITERARY SOCIETIES**—There are two strong and enthusiastic literary societies, to which the business college students will have access the same as the other students.

. . .

### **Tuition**

A scholarship, providing for unlimited time in which to finish the course, will be issued to the student upon the payment of \$50. No tuition is refunded; but the student will be permitted to return at any time to complete or review the course without extra expense. If a student does not wish to take out scholarship, he may take any or all the studies in the Business Department and as many studies from the regular College Course as he may desire by paying regular term rates.

# COLLEGE OF STENOGRAPHY AND TYPEWRITING

. . .

S. L. McCRORY, Principal

---

**T**HE Principal of this department is a very competent and thorough teacher. Under his management this department has made a very gratifying development.

. . .

**Terms : Life Scholarship, \$40.00**

---

**THIS SCHOLARSHIP** entitles the holder to admission in classes until graduation. He may also return and review at any time without additional charge. A student in this school has superior advantages over students in most schools where **SHORTHAND** and **TYPEWRITING** are taught, having access to the entire Literary Department.

**DIPLOMAS** are granted when students are able to take dictations at the rate of one hundred and twenty words per minute and correctly transcribe the same on typewriting machine, and who have either passed satisfactory examination in this Institution or presented grades from some reliable school in the following branches: Reading in English, Penmanship, Spelling, Arithmetic, U. S. History, English Grammar, Geography and English Composition. **SPECIAL ATTENTION** given to correct Punctuation, Business Letter Forms, Forms of Legal Documents, Actual Business Correspondence.

No student is required to remain until graduation, unless he desires to complete the entire course and secure a diploma. When he has proven himself competent to carry on the correspondence of the average business firms he will receive a certificate to that effect, with signature of President and Instructor.

**ROOMS NEATLY EQUIPPED**, where students are required to spend a reasonable portion of their time each day under the care and direction of the Instructor.

**EVERY EFFORT** is put forth by the College to secure situations for all who become competent, and especially for those who stay until **GRADUATION**.

For further particulars, address the Principal.

# COLLEGE OF ELOCUTION AND ORATORY

. . .

MISS M. G. POWELL, B. E. L., Principal

---

## Instruction in English Branches by the Professors in the College of Letters and Science

---

THE aim of the Department of Oratory is to provide for the study of the science of simple elocution, purification of the voice, distinct articulation and gesture. Attention is given to the development and proper action of the muscles of expression, the imagination and other mental faculties, so that the student may interpret with ease and precision the best thoughts and feelings of others.

Students will be required to practice thoroughly vocal exercises and æsthetic gymnastics.

The Delsarte system of expression will be followed as taught by the best interpreters in Boston and New York.

Students taking a satisfactory English Course, in addition to elocution, will be graduated with a diploma.

The prizes offered are a great stimulus to the students who study elocution.

. . .

### Tuition

---

Private lessons, 75 cents per lesson. In classes of two or three, per lesson, each student, 50 cents. During the past year classes of five were formed at considerably reduced rates. A class in reading will be free to all regular students. Term rates in advance.

Extra tuition will be charged for Literary Studies.

# COLLEGE OF FINE ARTS

. . .

FRANC A. GREEN,

Principal and Instructor in Painting and Drawing

UNTIL within a few years, the idea prevailed that the study of Art was only for a few, especially endowed by nature. To-day the study of the fine arts in one or more branches is regarded as an essential part of a finished education, and it is recognized that *anyone* may, by careful study under competent instructors, gain considerable proficiency, as well as acquire an accomplishment which will be the source of much pleasure. Miss Green has studied several seasons under the direction of able artists of Chicago and other cities, and is well prepared to give instruction in the work of this department, which is designed to be thorough and comprehensive.

. . .

## Course of Study

FIRST YEAR—Practice in charcoal, crayon and penciling, copying from the flat. Drawing from objects, in either charcoal, crayon or pencil. Lessons in perspective. Painting in oil or water colors, with special instruction with regard to color.

SECOND YEAR—Drawing from the antique—hands, feet and busts. Painting in oil and water colors. Lectures on Artistic Anatomy. Drawing from nature.

THIRD YEAR—Drawing from the antique—busts and statue. Drawing and painting from landscape, still life, etc. Lectures on Proportion and History of Art. Review of the full course.

Chaddock College students will be admitted free to the classes in Perspective, Light and Shade, and Study of Color.

. . .

## Tuition

Pencil Drawing, 12 lessons.....	\$ 3 00
Sketching from Nature, crayon and charcoal work, 24 lessons..	7 50
“ “ “ “ “ “ “ 12 “ .....	4 00
“ “ “ “ “ “ “ single lesson.....	35
China Painting, water colors, pastel, decorative art, 24 lessons.....	15 00
“ “ “ “ “ “ “ 12 “ .....	8 00
“ “ “ “ “ “ “ single lesson.....	75

In addition to the regular course in Art, as above described, instruction will be given, if desired, in pen and ink drawing, sepia and portraiture in crayon.

Extra tuition will be charged *pro rata* for literary studies.

# CONSERVATORY OF MUSIC

## Subject and Method of Instruction

THE course of study includes systematic and progressive instruction in the theory, history and practice of music, and is arranged with a view towards enabling the student to become an accomplished musician.

### The Piano

Lessons on the Piano are given privately, or in classes of two, as is deemed best to secure the progress of the students.

### Course of Instruction

#### FIRST YEAR

Exercises by Plaidy or Zwincher.  
Studies by Koehler, Loeschorn, Heller and Czerny.  
Sonatinas and easy pieces for instruction.  
An easy Sonata from Mozart or Haydn.

#### SECOND YEAR

Herm Berens, Op. 61.  
Czerny's School of Velocity.  
Heller, Op. 46 and 47.  
Krause, Op. 5.  
Sonatas by Mozart.  
Mendelssohn's Songs Without Words, and other pieces of this grade.

#### THIRD YEAR

Czerny, Op. 740.  
Cramer's Studies, edited by Von Bulow.  
Octave School, by Doering or Kullak.  
Pieces by Schubert, Weber, Raff, Merkel, Chopin, and others.  
Well Tempered Clavichord by Bach.  
Well Tempered Czerny's 40 Daily Studies.

#### FOURTH YEAR

Moscheles, Op. 70.  
Clementi, Gradus ad Parnassum.  
Etudes, by Chopin.  
Beethoven, Sonatas.  
Pieces by Schumann, Chopin, Liszt and others.  
One Concerto, by Beethoven and Mendelssohn.

## CULTIVATION OF THE VOICE

. . .

**T**HIS important branch of musical instruction receives careful attention. Students are trained either singly or in classes; and in the classes ample opportunity is afforded for the individual student to observe the efforts of others, and to hear the criticisms of the professor upon their exercises. The development of the same timbre and beauty of tone throughout the entire voice, breathing, correct vowel formation, articulation and pronunciation, receive first attention.

Vocalizes or Concone, Sieber, Abt, Panafka, and others are employed, and the works of the best German, Italian and French song writers interpreted, as the student's ability may warrant.

. . .

### Recitals

---

All students of music are required to be present at the Recitals; at which every student will be called upon to perform, at least once each term. Critical remarks are made by the professors upon the merits of the pieces rendered, and their relations to other works by the same or other authors.

. . .

### Theory of Music

---

The Theory of Music, embracing harmony, musical forms, counterpoint and fugue, is taught in classes. Instruction is given in lectures, with abundant illustrations and explanations upon the blackboard; of which the students are required to make careful digests.

. . .

### Tuition

---

#### FALL TERM

Private Lessons (60 minutes each), 2 per week, 14 weeks.....	\$35 00
Private Lessons (60 minutes each), 1 per week, 14 weeks.....	17 50
Private Lessons (60 minutes each), 2 per week, half term.....	17 50
Classes of two, time as above, one-third less per pupil.	

#### WINTER TERM

Private Lessons (60 minutes each), 2 per week, 12 weeks .....	\$30 00
Private Lessons (60 minutes each), 1 per week, 12 weeks.....	15 00
Private Lessons (60 minutes each), 2 per week, half term.....	15 00
Classes of two, time as above, one-third less per pupil.	

SPRING TERM

Private Lessons (60 minutes each), 2 per week, 10 weeks.....	\$25 00
Private Lessons (60 minutes each), 1 per week, 10 weeks .....	12 50
Private Lessons (60 minutes each), 2 per week, one-half term.....	12 50
Twenty Lessons (60 minutes each), 2 per week.....	25 00
Twenty Lessons (30 minutes each), 2 per week.....	15 00

Classes of two, time as above, one-third less per pupil.

. . .

Use of Piano and Pedal Organ

FALL TERM

One hour per day.....	\$ 4 00
Two hours per day.....	7 00
Three hours per day.....	10 00

Half Term, half rates. No arrangements made for less than Half Term.

WINTER TERM

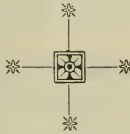

One hour per day.....	\$3 50
Two hours per day.....	6 00
Three hours per day.....	8 50

Half Term, half rates. No arrangements made for less than Half Term.

SPRING TERM

One hour per day.....	\$3 00
Two hours per day.....	5 00
Three hours per day.....	7 00

Half Term, half rates. No arrangements made for less than Half Term.

# COLLEGE OF MEDICINE

. . .

## Faculty

---

H. HART, M. D.,  
Professor of Principles and Practice of Medicine.

GRANT IRWIN, M. D.,  
Professor of Materia Medica, Therapeutics and Toxicology.

R. J. CHRISTIE, JR., M. D.,  
Professor of Principles and Practice of Surgery.

J. W. E. BITTER, M. D.,  
Professor of Obstetrics.

J. R. LAMBERT, M. D.,  
Professor of Physiology and Pathology.

S. F. MEACHAM, M. D.,  
Professor and Demonstrator of Anatomy.

W. W. HART, D. D. S.,  
Professor of Dentistry and Oral Surgery.

J. F. CLEARWATERS, A. M.,  
Professor of Chemistry.

W. SCHLAGENHAUF, LL. B.,  
Professor of Medical Jurisprudence.

Provision is being made to complete the corps of professors before the opening of the school.

## COLLEGE OF MEDICINE

THE Chaddock College of Medicine has been entirely reorganized and will open this fall with a full and thorough corps of instructors in the various departments of a medical college. The course of instruction will be fully equal to that given in the best medical schools in the country.

A three years' course will be required, and candidates for graduation must have attended three full courses of lectures; the *last* of which, at least, must have been attended at this College.

All recitations, lectures and laboratory work are given at the main building of Chaddock College. The rooms fitted up for the Medical Department are neat and comfortable, heated with steam, and sufficient to accommodate the school. Dissecting is done away from college buildings.

Upon arriving in the city, students should go at once to the college buildings, where they will be received at any time in the day or night, and provided with comfortable quarters.

### Fees

Matriculation Fee.....	\$ 5.00
Professor's Ticket.....	40.00
Demonstrator's Ticket.....	10.00
Examination.....	25.00
Single Tickets.....	10.00

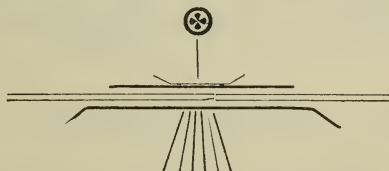

Anatomical Material at Cost.

The course of instruction will begin the second Tuesday in October, and will continue until the second Wednesday of the ensuing March.

For further information, address

REV. ABNER CLARKE, Registrar,

QUINCY, ILLINOIS.

# CHADDOCK COLLEGE LAW SCHOOL

## Course of Instruction

THE law is of such a character that one may begin the study of it by taking up any one of its branches, for it cannot be said that the successful acquisition of any one branch depends upon a previous knowledge of some other branch. It results from these considerations that a student may enter a law school at any time, and, by finishing four successive semesters, acquire a knowledge of the whole course of instruction, as readily as if he entered at the beginning of the college year.

The course of instruction in this school covers two full years, divided into two semesters each, or thirty-six weeks in each year. The students all attend the same classes. The subjects are distributed as follows :

### Year 1892-93

#### FIRST SEMESTER

Mondays.—Greenleaf on Evidence, Vol. 1.  
Tuesdays.—Washburn's Criminal Law.  
Blackstone's Commentaries, Book 4.  
Wednesdays.—Tiedeman on Commercial Paper.  
Thursdays.—Horner's Probate Law.  
Fridays.—Statutes.

#### SECOND SEMESTER

Mondays.—Cooley on Constitutional Limitations.  
Tuesdays.—Story's Equity Pleadings.  
Wednesdays.—Puterbaugh's Common Law Pleadings.  
Thursdays.—Boone on Corporations.  
Fridays.—Practice.

### Year 1893-94

#### FIRST SEMESTER

Mondays.—Parsons on Contracts, Part 1, except Shipping and Insurance.  
Tuesdays.—Story's Equity Jurisprudence, Vol. 1.  
Wednesdays.—Cooley on Torts.  
Thursdays.—Tiedeman on Real Property, Chaps. 1 to 10, 16, 17.  
Fridays.—Blackstone's Commentaries, Bks 1 and 3.

#### SECOND SEMESTER

Mondays.—Parsons on Contracts, Part 2, and Shipping and Insurance.  
Tuesdays.—Story's Equity Jurisprudence, Vol. 2.  
Wednesdays.—Stephen on Pleading.  
Thursdays.—Tiedeman on Real Property, Chaps. 11 to 15, 18 to 23.  
Fridays.—Blackstone's Commentaries, Book 2.

## Method of Instruction

The method of instruction adopted is that of daily recitations from the best approved text books, taking up a different subject every day of the week, and so avoiding the inevitable tedium of continued

application to the same legal subject. Lectures will occasionally be given by competent members of the bar on special legal topics. The superiority of a well conducted law school over the method of pursuing the study of the law at odd times in an office, is now recognized by all well informed lawyers. Not only does a law school prescribe and enforce a systematic course of study, but the association of the students in classes is productive of that spirit of emulation which strongly incites the student to study, so as not to fall behind his fellow students, and the discussion of the lesson always brings out many valuable points that would otherwise be overlooked.

The sessions are held at Chaddock College in the evening, which enables students to find employment during the day time, if they so desire, or to take further studies in the literary departments of the College.

### Admission

Any person of good moral character and good English education may become a student in the law school, on satisfying the Faculty as to these points. Students who furnish satisfactory evidence of advanced standing, may enter the school and in one year, on passing the usual examinations and complying with the other requirements of the school, graduate and receive a diploma.

Ladies are admitted on the same terms, and entitled to the same rights and privileges, as gentlemen.

### Morals

While endeavoring to impart legal knowledge, the fact will not be lost sight of that a high moral standard is a most important requisite to a successful and honorable career; and no pains will be spared in impressing this fact upon students and in inculcating a high tone of professional ethics and conduct.

### Graduation and Degrees

Students who have completed a full two years' course in this school, or a satisfactory equivalent for the same, will be entitled to the degree of Bachelor of Laws, on complying with all the requirements of the school.

Each candidate for graduation is required to prepare and deposit with the Faculty, at least one month before the Commencement, a thesis, of not less than twenty nor more than thirty pages of legal cap, upon some legal topic selected by himself. The dissertation must be satisfactory in matter, form and style.

At the close of each semester a thorough written examination will be held, and a satisfactory standing on such examination will be required before a diploma is granted.

All graduates will be required to deliver an oration at Commencement, if it be desired by the President of the College.

. . .

### **License**

---

The diploma of this school admits to the bar of Illinois, without further examination, if the student has attended two full years of thirty-six weeks each.

. . .

### **Medal**

---

The Law Faculty offer a gold medal for the best law thesis written by a member of the graduating class, provided there are three or more contestants, to be awarded annually on Commencement Day of the Law Department.

. . .

### **Moot and Club Courts**

---

Moot Courts will be held at convenient times, presided over by some member of the Faculty, in which every student will be required to take part, in one case each semester. The organization of Club Courts, to be wholly under the control of the students, will be encouraged.

. . .

### **College Connection**

---

Many students find themselves embarrassed on the very threshold of their studies, for want of acquaintance with Latin and other studies which they have not had the opportunity of taking. In view of the difficulties thus experienced every year, by many meritorious students, arrangements have been made that any person regularly matriculated in the School of Law, may take any two of the scientific or literary studies in the other departments of the College, free of charge.

Students who, from any cause, have not acquired sufficient education, will find this special feature of the College of great practical advantage and value in the study and practice of law.

. . .

### **Courts**

---

The Circuit Court is in session during the entire scholastic year, with the exception of possibly four or five weeks. Important probate business is transacted in the County Court almost every day,

besides its three regular law terms. The city courts are in session every morning at the City Hall; and students, when not engaged at lectures or recitations, may attend any of these courts, and will usually find some member of the Faculty present, who will explain the practice.

. . .

### Fees and Expenses

---

Tuition, in advance, per semester .....	\$30 00
Graduating Fee and Diploma .....	5 00
Tuition per year, if paid during the first week, in advance .....	50 00

No matriculation fee is charged.

Board can be obtained at the College Dormitory for \$3.25 a week, and at reasonable rates in any part of the city.

The text books used are such that any lawyer ought to have in his office, and will furnish a valuable nucleus for the student's law library. Arrangements have been made to get text books at figures lower than catalogue prices. Students have free access to the College and City libraries, and also have opportunity to consult the many fine libraries of the Quincy bar. The names of the text books can all be found in the Course of Study.

For list of Faculty, see page 6.

. . .

### Semesters

First Semester begins September 12, 1892.

Holiday Vacation, December 16 to January 1.

First Semester ends January 27, 1893.

Examinations held January 23 to 27, 1893.

Second Semester begins January 30, 1893.

Second Semester ends June 2, 1893.

Examinations held May 29 to June 2, 1893.

Commencement, June 7, 1893.

For further information, or for catalogues and circulars, address,

THOMAS R. PETRI, Secretary Law School,

QUINCY, ILLINOIS.

ADMITTED TO DEGREES, 1892
